DETAILED ACTION

Claims 1-12, 14-23 and 35-51 are currently presented and have been examined.

Response to Arguments

Applicant's arguments, see pages 3 and 4 of the response filed 26 October 2004, with respect to Cragun and Robinson have been fully considered and are persuasive. The rejection of claims 1-12, 14-23, and 35-51 has been withdrawn.

Allowable Subject Matter

Claims 1-23 and 35-51 are allowed in view of the Applicant's arguments and the cited prior art. Claims 1, 18, 19, 21-23, 35, 48, 49, and 51 recite replacing a predetermined advertisement or an identifier representing the predetermined advertisement contained within monitored content in a processing environment with another predetermined advertisement in accordance with a user specific replacement rule based on received input from the user that correlates the predetermined advertisement in the monitored content with the other predetermined advertisement that replaces the predetermined advertisement within the monitored content which, in addition to the rest of the claim limitations, are distinguished from the prior art.

Art Unit: 2143

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because some of the figures are informal and the case is in condition for allowance. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
